Video de instalación.
Installation video.

1 Cogér el conjunto bloque y casquillo ya roscado.

Pick up the pre-threaded block and bushing assembly.

2 Regular la posición del escudo. Adjust the position of the escutcheon.

a) Colocar el escudo rodeando el cilindro, empujándolo hacia la puerta, y comprobar que no haya hueco (Fig. 2.2.).

a) Place the escutcheon around the cylinder, pushing it towards the door, and check that there is no gap (Fig. 2.2.).

Fig. 2.1

Fig. 2.2

b) Girar el aro exterior mientras se empuja el escudo hacia la puerta hasta que no haya hueco (Fig. 2.2.).

b) Rotate the outer ring while pushing the escutcheon towards the door until there is no gap (Fig. 2.2.).

3 Llevar el tornillo prisionero al extremo inferior y apretarlo fuertemente.

Position the set screw at the bottom extremity and tighten it tightly.

Prisionero contra el canal (se evita dañar la rosca).
Set screw against the channel (thread damage is avoided).

*Llave incluida.
*Key added.
